# PURE FREUDE AN WASSER

GROHE products are beautifully designed to last a lifetime. Nothing matters more to us than producing innovative kitchen and bathroom faucets, showers and accessories that not only look great but also perform brilliantly - and go on working forever.

In the Bathroom we have the widest range of products for all draw-off points and in three styles: Cosmopolitan, Contemporary and Authentic – each with a distinct look and characteristic, to satisfy our consumers around the world. Other exciting developments include our pioneering GROHE Power&Soul® shower with seven ‘one click’ combinations of both invigorating and relaxing spray patterns, as well as the continued development of GROHE Eurocube, which offers a Cosmopolitan range at an affordable price.

In the Kitchen we have highly professional, innovative and caring products such as Minta Touch, which offers ‘hands free’ water control, and our continued development of GROHE Blue®, offering filtered, chilled, still or sparkling water straight from the faucet – saving money in a more sustainable way. GROHE Red™, on the other hand, delivers boiling hot water effortlessly. A special Kitchen Brochure is available.

Based in Germany, where the vast majority of our products are made, GROHE continues to invest substantially in new technology that not only satisfies but exceeds industry standards and legal requirements. Our hand-mixers, for example, have to fulfil regular lifetime tests that simulate over 15 years of usage. Our ‘Moments of Truth’ are unique ways in which GROHE products perform – for example our GROHE SilkMove® caring technology involves Teflon-lubricated ceramic cartridges that produce near-frictionless performance and hence very long life.

GROHE Design is another top priority. The focus on performance means people respect our products – but our pursuit of beauty ensures they love them too. That’s reflected in the many best-of-the-best awards for our zeitgeist designs, including the Red Dot Design Team Award, more usually reserved for brands such as Apple, Bose and Porsche. At GROHE we are proud to share such company.

Water scarcity is a global concern. At GROHE we embrace Sustainability in all our thinking and processes. GROHE EcoJoy™, for example, embraces water-saving technology to help control and reduce water consumption in the Bathroom. In the Kitchen, GROHE Blue® offers a fundamental alternative to expensive bottled water – enjoyable water, straight from the faucet!

The enjoyment of water has been our ultimate aim since GROHE was founded in Hemer, Germany in 1936. In 2013 we have decided to change our claim into German to stress our German heritage and performance. GROHE - Pure Freude an Wasser. Pure joy of water. We sincerely trust that you will enjoy water from GROHE products for years to come.

# CREATING BLISSFUL SPACES

Designing your new bathroom has never been more exciting. It's a unique opportunity to create your own personal oasis – a place to retreat to after a hard day's work, to relax and unwind and let the restorative benefits of water wash all your stresses away.

Hip hotels have opened our eyes to the wealth of products available and how clever use of materials, sanitaryware and faucets can transform a functional space into something really spectacular, while destination spas have encouraged us to take time out and experience the pleasures of hydrotherapy. The bathroom is now a place for rejuvenation and relaxation and a real pampering zone. Whether it's a quick energising shower first thing in the morning or a long, lingering candlelit soak before bed, our extensive range of faucets, showers and accessories will let you create the bathroom of your dreams. By combining superior technology with a choice of breath-taking designs, GROHE can provide you with all the elements to enhance your bathing space.

Good planning and design will result in a space that is both efficient and a joy to use. Books, magazines and, of course, this brochure are all great sources of inspiration and will help you build up a picture of how you want your space to look and perform. Visit our website [www.grohe.com](http://www.grohe.com) for additional product information, planning and installation solutions. And don't forget the other elements that will enhance your time spent bathing. Install dimmable lighting, a music system and perhaps even an armchair; these additions will all help make your bathroom a personal wellness centre.

Design is in the details – so why not choose the faucets first! Faucets, bath fillers and showers are not only the hardest working pieces of bathroom equipment; they're the most exciting too. Our faucet collection features numerous design styles, from ultramodern shapes to timeless classics. Take a look through these pages and you're sure to find a faucet to match your bathroom scheme. Then turn to our shower section where you'll find our extensive range of feature-packed showering solutions.

## Large or small, open plan or intimate, GROHE has a solution for all your bathroom requirements

### Small spaces

Even the smallest of bathrooms can benefit from GROHE technology. A number of our faucet ranges include mixers designed specifically for small basins, while our shower systems can be fitted into the tightest of corners.

### Bathroom living

Bathrooms are evolving and fast becoming living spaces in their own right. Open-plan sleeping and bathing spaces – whereby the bedroom and en-suite are combined – are the norm in modern city apartments. In a situation like this, GROHE Whisper® technology comes into its own.

### Personal home spa

Advanced GROHE technology and directional designs means that you can bring the spa experience into your own home. Imagine taking a shower under a generous shower rose surrounded by body showers and then stepping into a deep bath filled to the temperature of your choosing. With GROHE you really can have it all.

PURE FREUDE AN WASSER  
PURE JOY OF WATER

**Kamarmandiku.com**

Indonesia's #1 Bathroom Website

Pure  
Freude  
an Wasser

Water is the source of life. It flows through everything in our world, sustaining and supporting, comforting and cleansing. It restores us like nothing else can, whether it is cascading from a warm shower or steaming in a soothing bath. Water is a wonder. That is why we are so passionate about what we do. It is why we invest all our expertise in innovative technology to help you enjoy water and, just as importantly, conserve water. We combine commitment to innovation, timeless design and a longstanding German tradition of product quality to bring you the pure enjoyment of water – Pure Freude an Wasser.

**GROHE**  
~~~~~

PURE FREUDE AN WASSER PURE JOY OF WATER

Water is life's most precious resource and nature's greatest gift. At GROHE, we understand that this essential commodity is limited. That's why we want to bring you products that use water in a responsible and sustainable way.

For us, that means adopting an approach to engineering, manufacturing and product design that has performance and sustainability at its heart. Consumer-driven innovation has always been the guiding principle of our product development; today, we work tirelessly to combine that with investment in technology.

Sustainability starts with longevity. GROHE products are long-lasting products that survive generations. When you invest in GROHE bathroom and kitchen faucets and fittings, you benefit from our tradition of German precision engineering, our programme of exhaustive lifetime testing and the rigorous production standards in all our six plants worldwide – three of which are located in Germany.

Our products work beautifully, but they also look beautiful. GROHE's outstanding design has won numerous awards, including the ultimate design accolade of the "Red Dot Design Team of the year 2011/2012", a first for the sanitary industry. Previous winners include inspiring brands such as Apple, Audi and Bose and the most recent recipient, Porsche.

Our investment in technology that performs at the highest level while caring for the environment is ongoing and groundbreaking. For instance, products are now starting to be built with unique GROHE Zero lead-free alloys. Our wider approach to caring for our environment and community encompasses many ethical initiatives, such as our installer education programme for the underprivileged youth of Mumbai in cooperation with Don Bosco Mondo.

This is a philosophy that governs everything we do. GROHE believes that the highest performance comes from taking the most care: care of our customers through beautiful products and first-class service; care of our society through innovative programmes and responsible involvement; and care of the environment's most precious resource through smart innovation. Working in harmony, these things combine to offer the pure enjoyment of water – Pure Freude an Wasser.

PURE FREUDE AN WASSER GERMAN ENGINEERING AT ITS BEST

For many consumers, “Made in Germany” is a marque that stands for quality, precision and attention to detail. Our design and product development facilities are all located in Germany, where we conduct comprehensive pre-launch product testing and ongoing production checks. Consistently high production standards are guiding principles in all our plants, which run at the same level of quality across the world as they do in Germany.

PURE FREUDE AN WASSER SETTING THE STANDARD FOR GERMAN FACTORIES

Great performance comes from high-quality manufacturing. And Germany is the home of manufacturing quality. GROHE is a proud part of this tradition: our engineering experts and award-winning in-house design teams are all based in Germany. These teams share a cooperative approach to product development, part of a holistic philosophy that sees design, engineering and production working in harmony like a well-conducted orchestra.

This integrated approach has been recognised with a prestigious award. Our factory in Hemer was among the winners of the 'Die Beste Fabrik' (Top Factory) competition, organised by WirtschaftsWoche in Germany. The award followed a complete modernisation of the plant in recent years. Workshop production was converted to line production, and lead times have been cut from twenty to just four days.

All GROHE factories – in Germany, Portugal, Thailand and Canada – are 100% owned by GROHE. All factories comply with the highest environmental, health and safety standards. The major production sites in Germany, Portugal and Thailand are continuously being audited by independent external certification bodies against the international standards for environmental impact (ISO 14001:2009) and health and safety management systems (OHSAS:2007).

Testing is as important to us as manufacturing. GROHE applies higher standards to our products than worldwide legal and regulatory levels. Lifetime tests that simulate over 15 years of usage, plus thorough final testing of products as they leave our factories, ensure that your GROHE products will give you many years of enjoyment.

The state of the art GROHE factory in Hemer, Germany. Won the industrial competition "Die Beste Fabrik" (Top Factory) in 2009.

PURE FREUDE AN WASSER
DELIVERING ULTIMATE
PRECISION

Kamarmandiku.com

Indonesia's #1 Bathroom Website

The daily rituals of washing hands, taking showers or making tea or coffee might seem inconsequential, but to our engineers they're part of the science of enjoying water. GROHE has been developing and producing the key component of faucets – cartridges - for more than 70 years. Today GROHE is one of the few remaining producers of the entire faucet, including the brass and the cartridge. We have supplied over 100 million fittings, all of them 100% produced by GROHE. It's a record that none of our competitors can match.

PURE FREUDE AN WASSER FIRST FOR INNOVATION

For more than three quarters of a century, GROHE has made the sector what it is, shaping the industry with our in-house engineering and innovation just as surely as we shape the designs of our award-winning faucets and fittings.

That's reflected in the number of industry firsts we've achieved over the whole of our history: from our production of the first thermostat in 1957, through to the 21st century and the introduction of the first digital controls for the complete bathroom with GROHE Ondus® Digital.

Our appetite for the new and the groundbreaking is as great as ever. Just look at GROHE Blue®, with its instant delivery of chilled still, semi-sparkling and sparkling water.

Or the new Minta Touch, which brings a new area of convenience to the kitchen. With dirty hands you only need to touch the faucet with your wrist for instant water delivery.

Or take a look at GROHE Power&Soul® showers, with an indulgent choice of seven innovative spray-patterns at the touch of a button.

Then there are those eye-opening developments that we call the "Moments of Truth" – the technologies which lend GROHE products their aura of sleek day-to-day reliability and distinctiveness. They include GROHE SilkMove® – special Teflon-lubricate ceramic cartridges that produce almost frictionless performance and thus long life. Lifecycle-tested to over 400,000 operations, GROHE SilkMove® comes with an extra-wide operating angle, with a unique 'comfort zone' that provides gradual and precise temperature adjustment.

Then there is GROHE StarLight®. This technology guarantees that your faucets look brand-new for many years, keeping their lustre whatever the world throws at them.

All of which demonstrates that our technology is not just groundbreaking; it's indulgent and enjoyable as well. Being first is always good, but we will never cease working to make our innovations beautiful and effortless to use.

Blue Core™ – The distinctive blue-coloured components at the heart of GROHE products highlight GROHE's leading performance and quality.

PURE FREUDE AN WASSER MOMENTS OF TRUTH

GROHE SilkMove®

Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE StarLight®

Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE CoolTouch®

No scalding on hot surfaces thanks to 100% GROHE CoolTouch®.

GROHE TurboStat®

Always the right temperature, for utmost convenience and safety.

GROHE EcoJoy™

Save precious resources and enjoy 100% water comfort.

GROHE Zero

Lead-free, corrosion-resistant faucets thanks to the unique GROHE-developed alloy.

GROHE DreamSpray®

Innovative quality showers for luxurious revitalisation and wellbeing.

GROHE Digital®

Intuitive digital technology at your fingertips.

GROHE Whisper®

Innovative water technology delivering whisper-quiet acoustics.

GROHE QuickFix®

Faster, easier and hassle-free, GROHE QuickFix® cuts installation time by up to 50%.

BLUECORE™ BY GROHE

The distinctive blue-coloured components at the heart of GROHE products highlight GROHE's leading performance and quality.

The distinctiveness of GROHE products, already apparent in their timeless exterior, has its foundations deeply rooted in the unique internal components that GROHE manufactures.

To demonstrate our exceptional stable of unique technologies, we gave them visual recognition. BlueCore™ by GROHE sets apart the technology at the heart of our mixers, thermostats and water-technology systems. BlueCore™ denotes utmost precision and outstanding ease of use.

Highlighted in a blue colour, BlueCore® epitomises GROHE product quality, unique functionality and our corporate spirit. It's a magical brand core that highlights all GROHE innovations and technologies that offer Pure Freude an Wasser.

GROHE SilkMove® cartridge

The heart of each GROHE single-lever mixer ensures a lifetime of effortless water control.

GROHE TurboStat® cartridge

The heart of a GROHE thermostat – for utmost convenience and safety.

GROHE Rapido

The innovative concealed installation, pre-assembled and tested in our factory for 100% safety.

GROHE discharge valve AV1

This valve is multi-functional and suitable for all flush technologies (dual-flush system, start-and-stop function, single-flush system).

Indonesia's # 1 Bathroom Website

GROHE ECOJOY™

Save precious resources and enjoy 100% water comfort.

All GROHE EcoJoy™ products are systematically designed to save water and energy so that precious resources are conserved. These products, equipped with water-saving technologies, offer the perfect water experience without the need to compromise. Reducing water and energy consumption goes hand in hand with convenience and attractive design. Less water. Perfect flow.

GROHE is the only manufacturer offering a full-spectrum of water-saving products – for bath, shower and sanitary installation.

50 %

GROHE single-lever mixers – On numerous models across all style and price segments, integrated technology automatically reduces water consumption by up to 50% compared to standard rates every time the faucet is turned on, yet still ensures that same perfect flow.

40 %

GROHE showers – For your perfect shower experience, a built-in technology effortlessly saves up to 40% of water on selected models, while delivering all the features and performance you would expect from a GROHE shower.

50 %

GROHE thermostats – With GROHE thermostats, the desired water temperature is reached within a fraction of a second and reliably maintained for the duration of your shower. No more time and water wasted while fiddling with controls to get the temperature right!

50 %

GROHE sanitary systems – Ecologically sensible: GROHE cisterns use water very sparingly. The start/stop and dual flush systems offer the opportunity of selecting one's preferred economical flush.

50 %

GROHE special fittings – Thanks to the electronic control, water only flows through these mixers when needed. Depending on the model, the mixer automatically turns off and saves water when the user removes his hands, for example during soaping, or after a pre-set time.

The highly innovative GROHE EcoJoy™ technology reduces water consumption by up to 50% without compromising on performance.

GROHE ZERO

**Lead-free, corrosion-resistant faucets
thanks to the unique GROHE-developed alloy.**

As a global brand, we tirelessly dedicate ourselves to harnessing our knowledge, technological expertise and German precision-engineering to make best use of the world's finite resources. The development of GROHE Zero brings a groundbreaking approach to manufacturing faucets.

After vigorous research, we have substantially reduced the lead content in brass to negligible levels. Lead is replaced by harmless metals like copper, ensuring that potential lead contamination of potable water is at an absolute minimum. GROHE's vast experience and expertise in the production process, harnessed with the technical opportunities that our own furnaces offer, has resulted in us setting new standards for drinking water with GROHE Zero.

More importantly, the new GROHE Zero alloy ensures unprecedented longevity. Its composition has been proven to be five times more resistant to corrosion. With a GROHE Zero faucet, you can be sure you will revel in the pure enjoyment of water in every aspect – day after day and for a whole lifetime.

GROHE Zero

Brass

GROHE STARLIGHT®

Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE faucets are guaranteed to look as beautiful decades on as they did the day you first fell in love with them. The special recipe to success lies in our long-lasting surface quality: GROHE StarLight® Technology.

Continuous improvement over the last 75 years has seen our unique plating process refined to produce a robust and immaculate surface that is recognised as one of the best finishes in the world. This is thanks to rigorous quality controls and ongoing investment, giving you a lifetime of enjoyment.

As well as the classic chrome finish, GROHE uses state-of-the-art machinery to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless-steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime. The zenith is GROHE's new SuperBlack surface that surpasses all other benchmarks and is an industry-first. This has been made possible by employing a chemical vapour deposition (CVD) process. It is five times harder than chrome and has a special coating that makes it a hundred times more scratch resistant.

Across the spectrum of GROHE finishes, from matt to shiny and in all colour choices, GROHE StarLight® offers a made-to-last finish. The flawless, long-lasting surface is designed to be extremely resistant to dirt and scratches, making maintenance effortless and ensuring good-as-new looks for many years.

GROHE StarLight® surface composition

GROHE surface hardness

GROHE scratch resistance

GROHE QUICKFIX®

Faster, easier and hassle-free, GROHE QuickFix® cuts installation time by up to 50%.

We want to make life easier. At GROHE we believe that our technical solutions should be quick to install and fuss free. That's why we've developed GROHE QuickFix®. We've listened to our team of loyal installers and researched the needs of our customers to create a system that works smarter for both. You'll find GROHE's QuickFix® precision engineering bringing benefits across all of our product categories.

GROHE faucets: GROHE QuickFix® offers installers an inspection shaft that simply clicks into position for tool-free installation, making the job up to 50% faster.

GROHE Installation Systems: Our Rapid SL installation systems are proven to be quicker and simpler to install than competitor's products, thanks to GROHE QuickFix®. No tools are needed for water connection and the height of frames can be adjusted quickly with the flick of a wrist.

GROHE showers: Using GROHE QuickFix® for shower rails makes assembly simpler. Adjustable brackets on the shower rails make for more flexible installation.

Design at GROHE has a zeitgeist feel – it captures the spirit of our age, with a positive look to the future. Our talented in-house design team have defined a unique aesthetic code to communicate the DNA of our brand. Our products capture the spirit and imagination of consumers throughout the world and have won a plethora of prestigious international Design Awards.

PURE FREUDE AN WASSER DESIGN DEDICATION AND EXPERTISE

An outstanding design pedigree always comes with a strong brand DNA. In our case that means subtle cues: a precise seven-degree incline on our levers and spouts; rings to emphasise areas of importance; and lozenge shapes which convey our philosophy of sensual minimalism. You won't consciously notice these elements. You will simply absorb them and be drawn to them. They will invite interaction and guide the user experience to ensure years of enjoyment.

GROHE's zeitgeist design team, led by Paul Flowers, has in recent years been awarded an impressive number of international best-of-the-best design awards. Expert juries agree with consumers time and time again – GROHE design offers an excellent balance of innovation, functionality, quality and aesthetics.

We are incredibly proud to have been awarded the world's most prestigious design accolade, the Red Dot Design Team of the year 2011/12, in a first for the sanitary sector. Previous winners include inspiring brands - from Apple, Audi and Bose - to the most recent recipient, Porsche.

Design is a fundamental pillar of the Grohe brand. This, together with our consumer centric approach and tireless commitment to quality, ensures our products function as beautifully as they look.

reddot design award
design team of the year 2011/2012

PURE FREUDE AN WASSER
SUSTAINABLE
AND RESPONSIBLE

Nothing is more important than the preservation of our resources. At GROHE, sustainable technology is a philosophy and an ambition that unites every individual in every department. Our patented GROHE EcoJoy™ technology helps you save water effortlessly. And the longevity of our GROHE SilkMove® faucets, which offer up to 20 years of maintenance-free comfort and reliability, helps to save valuable resources at all draw-off points.

PURE FREUDE AN WASSER IN BALANCE WITH NATURE

We have a duty of care to our planet. We all need to be thoughtful about the environment and about how we use precious resources – and none is more precious than water.

Our products help you do that, thanks to GROHE EcoJoy™ technology. Fitted in all our product lines, GROHE EcoJoy™ makes our smart systems even smarter. With embedded water-saving technology, these products help you care for the environment – effortlessly and with no compromise on enjoyment. For example, the new GROHE SilkMove® ES faucet technology uses the mid-lever position for cold water, saving energy by avoiding unnecessary heating of water.

But that's just one part of our commitment to sustainability. We've also introduced GROHE Zero, our unique, industry-first commitment to using lead-free alloys in our products.

GROHE Zero technology is a groundbreaking approach to manufacturing faucets, which has allowed us to reduce the lead content in brass by 90%. Thanks to our experience and expertise in production, and to the technical opportunities afforded by owning our own furnaces, we can replace the lead previously used with metals like copper. This is good for the environment, good for water quality and good for the longevity of our faucets; thanks to GROHE Zero, our faucets are now five times more resistant to corrosion.

Sustainability is also at the heart of our production processes. We care about quality, but when it comes to process, environmental and health and safety issues are also important. We use brass from our own foundry, which allows us to use recycled material internally. Thus, in GROHE factories, up to 99% of waste material is recycled, while energy consumption is minimised and excess heat reused. On top of this, every factory meets the highest quality standards, not only in process and product quality, but also in relation to health and safety and to the environment. Our factories are continuously being quality-checked by independent external certification bodies assessing quality (ISO 9001), environmental impact (ISO 14001) and health and safety (OHSAS 18001).

At GROHE, we believe in sustainable technology: the technology we make, and the technology we use to make it.

PURE FREUDE AN WASSER
HEART AND MIND

Our responsibility goes beyond environmental sustainability. With our products we try to change behaviour. GROHE Blue® Water systems used in office kitchens reduce the number of plastic water bottles and ensure employees always have access to filtered, fresh chilled water whenever they are thirsty.

We are also serious about our corporate social responsibilities. We have launched key initiatives which are changing people's lives, such as the GROHE Jal Academy, in Mumbai, India. There, in partnership with the Don Bosco Mondo initiative, we have trained more than 500 young people to become installation experts since 2009.

GROHE
~~~~~

# PURE FREUDE AN WASSER GLOBAL RESPONSIBILITIES

We take our responsibilities as manufacturers very seriously. And, while technology such as GROHE EcoJoy™ encourages efficient water usage, we like to go further.

For example, we have embarked on an innovative and successful programme with underprivileged young people in Mumbai, India. There, the GROHE Jal Academy at the Don Bosco Institute is committed to training plumbers, giving them a skill which can become a lifelong vocation. What is more, as part of this programme we took an active decision to participate in the local community. That is why associates from GROHE have spent time living and working in the area of Daravi.

Our involvement in these programmes was officially recognised in 2012, when GROHE was awarded the prize for innovation from the German Federal Ministry for Economic Cooperation and Development in Berlin.

Looking after people has to start at home. So we make sure our own associates work in a healthy and safe environment in all GROHE plants. All of our major factories are certified by TÜV Nord, according to OHSAS 18001:2007, the world's most recognised standard for occupational health and safety management systems (OHSAS=Occupational Health and Safety Assessment Series).

Our philosophy is simple: by working together with our associates, suppliers and partners we create value through positive, longstanding relationships. Out of these relationships emerges a responsible, long-lived and innovative business built on the "Pure Freude an Wasser".

# GROHE FAUCETS

It's a good feeling to cultivate your style and express your personality in all the things you surround yourself with in life. But when your aspirations go beyond the norm, your choices narrow. That's why we'd like to present you our large selection of bathroom faucets that reflect the latest in quality and technology.

# GROHE FAUCETS

Make a statement in your bathroom with a GROHE faucet. From modern sculptural lines to traditional silhouettes, there's a style and shape to match every interior and budget. Like a fine piece of jewellery or a luxury watch your choice of bathroom faucets is a way of expressing your personal style and values. Not only do they add a chic finishing touch, they are a focal point too.

## Cool looks

Our exciting range of faucets comes in an amazing array of styles, sizes and configurations. We have modern, linear shapes to suit architectural spaces, contemporary styles for family homes and traditional designs to enhance period-style bathrooms. And with our different prices – there's a style to match every budget too. All of them are packed with the latest technology for a lifetime of smooth operation and low maintenance – one of the reasons why you'll find GROHE products in some of the world's best hotels.

## Perfect products

Thanks to GROHE's unrivalled technologies – developed over the past 70 years – dripping faucets and sudden surges of water are no longer an issue. Our superior cartridge design incorporates GROHE SilkMove® technology. The ceramic discs are made from a space-proven ceramic alloy with a smooth mirror-like surface – for smooth operation and an extra wide operating angle that enables precise control of temperature change. While GROHE StarLight® technology gives all our faucets a radiant life-long shine due to our superior chromium finish.

## Material gains

Basins made from materials such as glass, natural stone and ceramics are now common place in the bathroom and can be used to make a real style statement. Counter-mounted stone bowls in marble and limestone will add a cool touch of organic minimalism while a shallow rectangular tray is a perfect addition to the ultra-modern home. Whether you require a small faucet to fit a tiny corner basin or a three-hole mixer set with tall, sculptural spout we have faucets to fit every basin permutation. And it's not just basins that benefit from GROHE's unbeatable technology and choice. Our bath faucets and bath/shower mixers lend a coordinated look to your bathroom and come with the added benefits of high flow rate and low noise level – convenient, comfortable and blissfully quiet.

**Our faucet ranges are available in a number of styles to suit various design needs.**

### Single-hole basin mixers

are available in two styles: one-hand mixers – where waterflow and temperature are operated together by one lever; and dual lever – hot and cold water are controlled independently.

### Three-hole basin mixers

This set-up comprises two handles and a central spout. They can be either deck- or wall-mounted.

### Pillar taps

These deliver either hot or cold water for small guest bathrooms or representative commercial construction – where space and energy saving solutions are required.

### Bath/shower mixers

Hot and cold water are mixed in one single unit, a diverter valve allows the water to be used for both the bath and the shower. They can be either deck- or wall-mounted or concealed.

### Integrated bath solutions

Bath combinations are designed to be integrated into the bath surround and come complete with a hand shower. GROHE's Talentofill is a single discreet unit that operates as a water inlet, overflow system and pop-up waste control.

# GROHE SILKMOVE®

**Smoothest handling for effortless precision and ultimate comfort for a lifetime.**

Only GROHE mixers deliver the unique GROHE SilkMove® experience. The rich, smooth handling of our single-lever mixers perfectly expresses the quality and superiority of our brand. The GROHE SilkMove® cartridge delivers gradual and precise control of the water flow and temperature.

The cartridge is the centrepiece of every mixer and where the ceramic discs are located. They are made from a space-proven ceramic alloy, one gliding over the other with utmost precision. The polished mirror-like surface of the discs is then coated with a special lubricant with Teflon® technology for friction-free performance. The lever handle of the mixer is connected to the discs by a solid brass element for maximum strength and durability. It is essential that the machining and quality of these precision parts are of the highest standards, so that they deliver unrivalled performance.

GROHE is one of the world's leading faucet manufacturers and one of a few worldwide that manufacture their own advanced cartridges. Our cartridges are designed to withstand years of use – for a lifetime of maintenance-free operation.

In a large-scale endurance test for single-lever mixers, Germany's TÜV SÜD examined the mechanical wear of products of nine renowned international manufacturers. Among the aspects tested were the operating forces in the movement of the lever, the breakaway torque after an extended rest period, the operating precision and the tightness. The result: GROHE is the clear test winner.

The special ceramic discs and Teflon® technology in GROHE SilkMove® cartridges ensure a lifetime of effortless precision.

Our extra-wide GROHE SilkMove® operating angle.

GROHE SilkMove® guarantees smoothness of operation as on day one – even after 20 years.

NEW

# GROHE SILKMOVE® ES

**The intelligent combination of energy saving and effortless water control.**

GROHE SilkMove® ES technology not only offers a unique smoothness of operation, but also encourages responsible management of energy and water. In cold-water mode and positioned mid-lever, the ES technology springs into life. This eliminates opening the faucet in the mixed hot-and-cold water mode, saving energy by avoiding the unnecessary heating of water for daily rituals like cleaning your teeth or washing your hands.

When you need hot water, the wide operating angle of the lever ensures that, by moving it up to 90 degrees left of the mid position, the flow of water is ultra-responsive and precise, giving you total control over temperature and water flow.

GROHE SilkMove® ES technology is a harmonious marriage of design and technology, delivering an enhanced water experience whilst encouraging responsible management of precious resources.

The special ceramic discs and Teflon® technology in GROHE SilkMove® cartridges ensure a lifetime of effortless precision.

Using the mid-lever position for cold water, GROHE SilkMove® ES reduces wastage of hot water, saving precious water and energy.

GROHE SilkMove® guarantees smoothness of operation as on day one – even after 20 years.

# GROHE QUADRA

The Quadra single-lever mixers capture the clear structures of modern architecture. The attention to detail maintains the purity of the Quadra design while delivering comfort to the user and clarity to the bathing space.

Featuring an ergonomically loop-shaped lever, the streamlined profile of Quadra makes a bold iconic statement. Soft radii reflect a move towards products that adhere to a Minimalist aesthetic, but bring a human element to the spaces in which they are used.

| Basin mixer | Shower mixer with shower system | 4-hole bath combination | Wall plate | Finish | Accessories  |

# GROHE QUADRA

GROHE SilkMove® technology, for precise control over water temperature and flow, enhances the ergonomic design of Quadra's loop handle. A choice of various basin faucets is supplemented by bath and shower mixers – all finished with GROHE StarLight®, our refined chrome surface.

A choice of faucet styles and mounting options ensures there's a faucet to match the latest basin designs. For reduced water consumption, a GROHE EcoJoy™ variant perfectly illustrates that it is possible to combine great design with a respect for natural resources.

# GROHE EUROCUBE

Basin mixer  
23 127 000

Bath/shower mixer with shower set  
23 141 000

For a sharp, tailored look in your bathroom choose Eurocube. Here is a design so cleverly engineered that we are able to offer an extensive choice of faucets featuring true square design for the basin, bidet, shower and bath. Across the range, cut-out detailing on the lever handles reduces the perceived volume of each piece, while highlighting the minimalist appeal of the collection.

# GROHE TENSO

A bold and striking fusion of straight and curved cylinders, Tenso expresses a contemporary signature through the parallelism of its lever and spout.

With its ergonomic design, the faucet's curved lever benefits from GROHE SilkMove® technology, for smooth and effortless control of water flow and temperature. GROHE StarLight® – our luxurious chrome finish – highlights Tenso's cylindrical form, while providing a lifelong permanent shine.

# GROHE CONCETTO

Like all GROHE collections, Concetto is an unbeatable mix of design and performance. The asymmetric design of the exposed bath and shower mixers has a unique appeal – their individual good looks further highlighted by our GROHE StarLight® chrome finish. Smooth and precise control of water delivery comes in the form of GROHE SilkMove®, our leading cartridge technology, while user-comfort is further enhanced by the angled mousseur.

# GROHE EURODISC COSMOPOLITAN

With its crisp profile and wide choice of mixer styles, Eurodisc Cosmopolitan ensures advanced performance for the most design-conscious consumers. Look closer and you will start to appreciate the finer details – a forward-leaning body to entice interaction and perfectly chamfered edges.

Naturally, the collection benefits from two leading GROHE technologies: GROHE SilkMove®, for smooth and precise handling and GROHE StarLight®, for a deep luxurious chrome finish.

GROHE Eurodisc Cosmopolitan produced with GROHE Zero – the unique new alloy from GROHE with 90% less lead than a standard faucet and five times more resistant to corrosion.

# GROHE EURODISC COSMOPOLITAN

The Eurodisc Cosmopolitan design is characterised by a self-assured posture and accurately detailed lines. The extensive range comprises numerous highlights for all needs and all draw-off points. While the generous span of the faucet offers a lot of space for comfortable hand washing, Eurodisc Cosmopolitan also has a lot to offer for shower and bathtub installations. As well as single-lever shower mixers for concealed and exposed installation, the portfolio even includes a complete shower system. The faucets are complemented by a soap and shower gel shelf which is designed to sit neatly on the exposed shower mixer.

The basin mixer variant features GROHE SilkMove® ES. This highly efficient cartridge technology allows user to save water and energy while offering a fully unique smoothness of operation.

# GROHE EUROSTYLE COSMOPOLITAN

Featuring a distinctive keyhole-shaped lever handle pitched at the inviting angle of seven degrees, Eurostyle Cosmopolitan offers a unique design proposal for the modern bathroom. Utilizing an astute mix of simple curves and flowing forms, the collection benefits from GROHE SilkMove® technology to ensure handling of your bathroom faucets is always a smooth, precise and comfortable experience – even after years of daily use. Additionally the basin mixer is equipped with the GROHE SilkMove® ES cartridge technology combining effortless water control with energy saving.

With an extensive line up of products, all finished in GROHE StarLight® chrome, everybody can benefit from leading GROHE design. Product choices include a 4-hole bath combination and a single-lever shower mixer with an innovative storage shelf – ensuring showering products are always close to hand.

# GROHE EUROSMART COSMOPOLITAN

Reflecting the core values of Minimalism, Eurosmart Cosmopolitan is the modern favorite in the bathroom. Finished in sparkling GROHE StarLight® chrome, the conical transition from the faucet body to the lever handle conveys a refined form without sacrificing solidity.

# GROHE EUROSMART COSMOPOLITAN

An extensive line up of products brings architectural design preferences to a wider audience and offers six styles of basin faucet to complement the latest bathroom ceramics. Product choices include high- and medium-high spouts as well as electronic control-device for excellent user comfort. The lozenge-shaped lever handle is pitched at an angle of seven degrees and benefits from GROHE SilkMove® – our superior cartridge technology, which delivers lifelong smooth handling across the collection. The basin mixer variant also features GROHE SilkMove® ES. This technology not only offers a unique smoothness of operation, but also encourages responsible management of energy and water.

# GROHE UNIVERSAL

Reduced to the essentials, the Universal Pillar Tap is the stylish and economical solution for guest bathrooms with a single-source supply of cold or pre-heated water.

Its slender, understated design and universal appeal complements all Cosmopolitan and Contemporary faucet lines, while the customary faucet lever or handle is replaced with a simple twist of the end of the spout.

Finished in GROHE StarLight® chrome, the collection offers a choice of four designs to meet the requirements of your installation. Choose from deck-mounted with either a C-shaped or 7° spout, or wall-mounted with a choice of 105 mm or 185 mm spout projection – to accommodate a range of basin styles.

# GROHE EUROPLUS

With its delicate balance of contemporary aesthetics and superior ergonomics, Europlus brings comfort and clarity to the bathroom environment. Sculpted lines bring a timeless appeal to the design, its form accentuated by GROHE StarLight® technology – our pristine chrome finish.

Finished with a parabolic detail and set at an incline of seven degrees, the lever handle features GROHE SilkMove® technology for comfortable and precise water control.

A classic within its sector, the timeless design of Europlus makes it a versatile and great-value faucet. The enduring aesthetic appeal ensures that every detail has been carefully considered, from the coordinated lift-rod to the tapering spout. Its universal appeal enables Europlus to work in a variety of bathroom settings, while a low-pressure basin faucet ensures compatibility with all plumbing arrangements. For a water-efficient bathroom, Europlus is also available with GROHE EcoJoy™.

# GROHE KENSINGTON

Refined styling and elegant details lend an air of understated luxury to the Kensington collection of faucets. A choice of two unique handle designs – solid metal levers, or multi-faceted round handles cut from glistening Swarovski® crystal or solid metal – complement the graceful arch of the spout.

| Basin mixer  | Bath mixer   | Finish |

# GROHE KENSINGTON

Shimmering in the light, Kensington with Swarovski® crystal handles harks back to a bygone era of glamour and indulgence. Sophisticated and precious, the multi-faceted handles bring a jewel-like quality to the basin area and can be found across a range of complementary bath fittings. Luxurious and attractive, Kensington will be the talking point of your home.

Kensington faucets with solid metal handles are offered in two designs – enabling you to choose the perfect match for your bathroom. An elegant lever handle, featuring ceramic headparts, complements a round design with faceted edges – reminiscent of the crystal handles. Both styles are offered as a three-hole basin mixer – their linear quality enhancing the rectangular forms of a classic pedestal basin.

# SAFE, FAST AND EFFICIENT GROHE THERMOSTATS DELIVER

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a faucet or flushes the toilet; suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

## What's inside?

Thermostatic valves work by constantly mixing hot and cold water to a pre-selected temperature. Even if there is a change in the water supply, the thermostat reacts by rebalancing the quantities of hot and cold water to maintain the correct temperature. In the most extreme cases, i.e. should the cold water supply fail, the hot water shuts off automatically to prevent scalding.

## Style choices

GROHE offers concealed and surface-mounted thermostats. With concealed models, the valve is installed behind the wall for a modern look. With surface-mounted thermostats, all the pipe work is behind the wall.

## User-friendly features

Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves, and an EcoButton to reduce water usage by up to 50%. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height is, while the AquaDimmer allows you to turn the water on and off, adjust the flow rate and divert between two water outlets.

## GROHE thermostats are the proven winners

LGA QualiTest GmbH, a subsidiary of TÜV Rheinland, carried out a major product test in 2006 that compared 17 thermostats from leading European manufacturers. In all classes our Grohtherm 3000, 2000 and 1000 thermostats achieved 1st place. Thanks to GROHE TurboStat® and GROHE CoolTouch® technologies, our Grohtherm 3000 won best product – achieving the top position in all four test categories.

## GROHE's quick guide to thermostat technology.

### What is a thermostat?

A thermostat maintains an exact water temperature of your choice, even when water is used elsewhere at home.

### How does it work?

The thermostatic mixer valve mixes the hot and cold water and reacts instantly to any changes in the supplies, ensuring the temperature is maintained to within + or – one degree.

### What are the benefits?

The pre-set temperature is reached within a fraction of a second and remains constant so there's no risk of scalding.

### Are there different types available?

Yes, GROHE offers many different models to suit every style of bathroom.

# GROHE TURBOSTAT®

**Always the right temperature, for utmost convenience and safety.**

Our revolutionary GROHE TurboStat® technology delivers water at your desired temperature within a fraction of a second and keeps it constant for the duration of your shower. Grohtherm thermostats are equipped with the most advanced and precision-made cartridges in the industry. By increasing the sensitivity of the thermo-element, our thermostats react to changes in water pressure twice as fast as before.

So, no more time and water wasted fiddling with the controls to get the temperature right.

**Compensating precisely for fluctuations in temperature and pressure results in a consistent and comfortable shower throughout.**

The GROHE TurboStat® thermo-element at the heart of GROHE thermostats.

**Exceptionally swift reaction to water-pressure fluctuations.**

# GROHE COOLTOUCH®

## No scalding on hot surfaces thanks to 100% GROHE CoolTouch®

The GROHE CoolTouch® technology ensures that the entire outer surface never exceeds your preferred shower temperature. By designing our thermostats to include an innovative cooling channel, we have created a barrier between the hot water and the chrome surface - so it's never too hot to handle.

This safety measure is especially useful for children, who can not always judge whether something they touch is dangerously hot.

## Safety surround = 100% GROHE CoolTouch®

Safety housing with water cooling

Now there's no risk of scalding yourself – or your children. The Grohtherm 2000 and Grohtherm 3000 thermostats offer all-round protection, as even the wall couplings are shrouded in the clever protective housing – 100% GROHE CoolTouch®.

# GROHTHERM THERMOSTATS – PERFORMANCE AT A GLANCE

Grohtherm 3000 Cosmopolitan

Grohtherm 2000 New

Grohtherm 1000

Grohtherm 1000 Cosmopolitan

Find your perfect match with a Grohtherm thermostat. From the pure, cylindrical form of our Grohtherm 3000 Cosmopolitan to the entry-level Grohtherm 1000, the range offers a choice of designs to meet all of your requirements.

GROHE TurboStat® technology guarantees a steady stream of comfortably hot water. Any fluctuations in the water temperature or pressure are compensated within a fraction of a second, leaving you to enjoy your shower at the temperature of your choice.

And there's no chance of burning your fingers on a hot chrome surface, thanks to GROHE CoolTouch® technology. For added comfort and safety, our Grohtherm 3000 Cosmopolitan and 2000 thermostats feature a sophisticated water-cooling system, to ensure the surface of the thermostats is never too hot to touch.

Thanks to their fast temperature finding and split-second response time, all GROHE thermostats can help you save water and energy and can be found within the GROHE EcoJoy™ collection of resource-efficient products. Furthermore, our deep chrome finish, GROHE StarLight®, resists tarnishing to ensure a luminous shine for years to come.

In addition to our leading technologies GROHE TurboStat® and GROHE CoolTouch®, the Grohtherm range offers a host of other benefits.

# GROHThERM 3000 COSMOPOLITAN

Grohtherm 3000 Cosmopolitan thermostats combine modern, minimalist design with our award-winning thermostatic technology for relaxing shower enjoyment. Based on a simple aesthetic philosophy of extruding cylinders in perfect proportions to create balance and harmony, the pure design is enhanced by GROHE StarLight® chrome – a deep, luxurious finish, which resists soiling and tarnishing.

GROHE TurboStat® responds rapidly to any fluctuations in pressure – maintaining your perfect water temperature, while GROHE CoolTouch® ensures the surface temperature of the thermostat never exceeds the temperature of the shower water – eliminating the risk of scalding from hot chrome surfaces. For a water-efficient bathroom, the EcoButton on the handle enables you to reduce your water consumption by 50%.

The range of exposed and concealed models complements GROHE Cosmopolitan collections – enabling effortless design coordination in the bathroom.

# GROHOTHERM 2000 NEW TECHNOLOGY YOU CAN TRUST

## GROHE TurboStat®

For a perfect water temperature at all times.

## GROHE Aqua Paddle NEW

Beautiful ergonomics for ease of use and precise water control.

## GROHE XL Waterfall NEW

Wide bath spout with XL-size silent water flow.

## THE HISTORY – EXPERIENCE AND INNOVATION

The thermostat is a vital piece of bathroom technology that mixes cold and hot water to create the desired temperature for the bath or shower. GROHE, which first began to engineer thermostats in the 1950s, has a well-earned reputation for manufacturing the most efficient products on the market.

GROHE has now sold more than 30 million thermostats and continually uses its long and valuable experience to innovate and improve their performance. Grohtherm 2000 New is the latest – and the best – model designed and Engineered in Germany and produced in GROHE's awarded factory in Hemer, Germany.

# GROHTHERM 1000 COSMOPOLITAN

Offering quality, technology and design at a competitive price, Grohtherm 1000 Cosmopolitan is our most compact thermostat. Crafted from a series of perfect cylinders, its slender design is the preferred choice for modern, architectural-style spaces.

The purity of its form is brought to life by GROHE StarLight® – our perfect chrome finish that is resistant to scratches and tarnishing. For a comfortable showering experience, GROHE TurboStat® technology ensures that the water temperature remains constant for the duration of your shower, while the EcoButton allows you to reduce the amount of water used effortlessly to save precious natural resources.

# GROHTHERM 1000

The Grohtherm 1000 thermostatic shower mixer allows you to experience the benefits of a thermostatically controlled shower at an attractive price. Finished in sparkling GROHE StarLight® chrome, Grohtherm 1000 benefits from GROHE TurboStat® technology, which ensures luxurious showering at a constant temperature – regardless of any changes in the water supply. A SafeStop button, set at 38°C, prevents children from turning up the temperature, while the EcoButton allows you to reduce water usage by up to 50%.

Concealed bath and shower faucets lend a clean, modern look to a bathroom – where only the essential elements are on show. With its shallow installation depth and choice of single lever or thermostatic operation, Rapido is a universal solution that enables you to create your perfect shower. Once installed, the concealed body is completed with a faucet trim set. Available in a wide range of designs to match our faucet and shower collections, the trim set can be chosen at a later stage as all designs are compatible with the concealed body.

# THE INNOVATIVE CONCEALED SOLUTION FROM GROHE. GROHE RAPIDO

## **Ultra flat design, only 70 mm installation depth**

Whether you're renovating an existing bathroom or creating a new one, Rapido is the perfect solution for concealed bath and shower faucets. Rapido is the ultra-flat concealed solution from GROHE. With only 70 mm installation depth it will fit into any wall. Where space is limited, Rapido is the solution.

## **Fast and safe installation**

With Rapido, you're always on the safe side. The concealed box and faucet body comes as a complete ready-to-install unit with coded water inlet and outlet connections. So there's no chance of it being installed incorrectly. The unit is 100% tested before it leaves our factory to ensure a lifetime of perfect and safe operation.

## **Numerous possibilities for maximum comfort**

Whether you choose a thermostat with GROHE TurboStat® or a single-lever mixer with GROHE SilkMove®, you can always rely on GROHE quality. GROHE Rapido E features our advanced GROHE SilkMove® technology, for a lifetime of smooth handling. For maximum showering enjoyment, GROHE Rapido T benefits from GROHE TurboStat® technology – for safety, comfort and water efficiency. Thanks to an excellent flow rate of over 50 litres per minute\* and a third outlet, Rapido T is also the perfect choice for a custom shower where you wish to install a head shower, hand shower and side showers.

For a thermostatically-controlled bath or shower choose Rapido T featuring our renowned GROHE TurboStat® technology, the mixer ensures safety and comfort for the duration of your shower. It responds rapidly to any fluctuations in the water supply so there's no risk of scalding, while a SafeStop button, set at 38° Celsius, prevents the temperature from accidentally being raised above this level – perfect for households with children. GROHE Rapido T may be used as a shower, tub or central thermostat and has a flow rate of over 50 litres per minute\*. It can supply water to up to three outlets enabling you to create your luxurious showering environment.

# GROHE DREAMSPRAY®

## Innovative quality showers for luxurious revitalisation and wellbeing.

GROHE's DreamSpray® technology is at the heart of every GROHE shower. Boasting the absolute finest quality, it incorporates innovation that helps you to enjoy an unparalleled showering experience.

The advanced shower engines inside the shower head deliver utmost precision and consistent water distribution to each individual nozzle. Whatever spray pattern you choose, for whatever your mood, you will be assured of sheer fun under the shower.

Exciting innovations include the new and highly sophisticated GROHE Bokoma Spray™: eight flexible nozzles create a 'breathing' effect, imitating a relaxing fingertip massage.

The GROHE Rain O<sup>2</sup> technology infuses water drops with air for a fuller, richer shower spray. But there is more. Some of the latest GROHE showers offer the choice between the classic GROHE Rain Spray and GROHE Rain O<sup>2</sup>. This allows you to choose between a softer or more active jet at any time for every member of your family.

The One-Click Showering spray selector gives you direct access to your preferred spray pattern. Never again will you have to twist the spray face or click through several patterns to reach the one you want. Just press the corresponding button and enjoy.

Together with our GROHE CoolTouch®, GROHE StarLight® and GROHE EcoJoy™ technologies, you will have an unsurpassable showering experience.

## GROHE DreamSpray® shower innovations

GROHE One-Click Showering: direct access to your preferred spray.

Simply choose between GROHE Rain Spray - the classic - or the air-infused GROHE Rain O<sup>2</sup> Spray.

Enjoy the feeling of a fingertip massage with the innovative GROHE Bokoma Spray™ engine.

SpeedClean: a simple wipe of a finger is all you need to remove any limescale. The InnerWater Guide protects against scalding and prolongs the life of the chrome surface.

# GROHE SHOWERS THE SPRAYS

Our unique design distributes the same amount of water to each and every nozzle, resulting in an even spray. So whatever pattern suits your mood – Normal, Champagne spray, Pure, Jet, Rain or Massage – you're guaranteed that it will be an all-over exhilarating experience.

The new sprays, GROHE Bokoma Spray™ and GROHE Rain O<sup>2</sup>, are the latest examples of GROHE DreamSpray® technology innovation.

## **Normal spray**

A great all-encompassing spray pattern with a refreshing and relaxing effect. Its universal appeal makes it a great all-rounder.

## **Pure spray**

The name says it all. A soft stream of pure water delivered from the centre of the shower head – reminiscent of a fresh, mountain spring.

## **Rain spray**

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking warm summer rain, the spray provides a full and even coverage.

## **Jet spray**

A focussed circular spray, which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

## **SmartRain spray**

All the features and benefits of our authentic Rain spray but with a reduced flow. A smart pattern that uses less water to deliver full showering enjoyment.

## **Massage spray**

A pulsating spray pattern for a stimulating massage. Gives the unique and invigorating all-over massage.

## **GROHE Rain O<sup>2</sup> spray**

A soft, smooth spray based on our original Rain spray. Water drops are infused with air for a wide and fuller spray.

## **Champagne spray**

Enriched with air for bigger and softer water droplets. More air means that less water is required when using this fulfilling and gentle spray pattern.

## **Bokoma Spray™**

Eight dynamic spray nozzles create a 'breathing' effect, recreating the tension-relieving sensation of a fingertip massage.

## **Deluxe Champagne spray**

An extra-rich spray bursting with soft water droplets

# GROHE SHOWERS MADE IN GERMANY

**Rainshower®, Power&Soul®, Euphoria and Tempesta are made in GROHE's shower factory in Lahr, in Germany's Black Forest.**

German innovations have always been a driving force behind the success of GROHE showers. GROHE has been producing its innovative showers and shower engines in Lahr, in Germany's Black Forest region, since the late seventies. Each GROHE shower therefore benefits from the wealth of the company's accumulated shower knowledge.

From injection moulding, welding and galvanising of plastic components to assembly, quality inspection and packing – proven expertise and diligent work at every stage of the process are key to the high quality of GROHE showers. This is what the GROHE factory in Lahr is all about – for the benefit of consumers around the world.

# GROHE SHOWER SYSTEMS

**Shower system**   **Finish**  
27 374 000   Chrome

To maximize showering comfort and enjoyment choose one of our feature-packed shower systems. With the wide choice of designs, GROHE has the perfect system for your personal showering habits as well as for all styles of bathrooms. All shower systems have GROHE DreamSpray® technology, which guarantees perfect water distribution to every nozzle, while GROHE CoolTouch® ensures the outer surface is never too hot to touch.

For the ultimate experience, GROHE offers a Rainshower® system with adjustable body jets that delivers Tailor-Made Showering to the whole family – whatever their height.

# GROHE POWER&SOUL®

NEW

## A perfect complement for any private spa

The new GROHE Power&Soul® shower systems are easily fixed on the wall and instantly add value to the bathroom both in functional and visual terms.

On Power&Soul® systems equipped with the innovative Power&Soul® 190 head shower, you have the choice between 4 single sprays and 7 additional unique mix sprays. Whatever the day, whatever your mood - with a Power&Soul® shower system you can enjoy maximum vitalization and total relaxation.

Whether you choose an AquaDimmer for fast switching between the head shower and the hand shower combined with a GROHE CoolTouch® thermostat which sets the desired water temperature, or if you prefer a straightforward diverter between the two showers in a renovation situation - a great shower experience is ensured at all times. The 450 mm shower arm can swivel and the shower rail features GROHE CoolTouch® to prevent scalding and to protect the GROHE StarLight® chrome surface.

GROHE Power&Soul® Systems are available in two designs: Cosmopolitan and Contemporary – created to ensure complete design coordination with your bathroom interior.

# GROHE RAINSHOWER® SYSTEM

## Bringing together the essential elements of a great shower.

Luxurious, tailor-made showering from a single product. Does that sound too good to be true?

With a GROHE Rainshower® shower system, that's exactly what you get.

Rainshower® Systems bring together the essential elements of a great shower, plus a host of other benefits to enhance your comfort and pleasure. With a full metal Rainshower® head shower – from 210 mm to 400 mm diameter – you will enjoy the luxurious wide GROHE Rain spray.

All of our thermostatic systems feature a GROHE CoolTouch® thermostat with a GROHE TurboStat® cartridge – designed with the world's most sensitive thermometer in mind: your skin. For the ultimate in indulgent showering, our top-of-the-range system is guaranteed to soothe your body and soul with its adjustable body showers – so the whole family can benefit from this new take on hydrotherapy.

The 450 mm shower arm swivels, while GROHE CoolTouch® prevents scalding and protects the GROHE StarLight® chrome surface.

# GROHE RAINSHOWER® NEXT GENERATION SYSTEMS

## Fusion of award-winning technology and design.

Unique designs and unique experiences. Rainshower® Next Generation Systems are an enticing fusion of award-winning technology and design. By adding the Rainshower® Icon and Rainshower® Solo 100 mm hand and 190 mm head showers to our proven shower system technologies, we created a first class line-up of shower systems that will engage your mind, body and soul.

Relax, safe in the knowledge that the thermostatic mixer is maintaining your pre-selected water temperature during your shower. Always constant, never fluctuating – so you can really let go. The thermostat and the shower rail with GROHE CoolTouch® technology ensure there is no risk of scalding from a hot chrome surface.

# GROHE EUPHORIA SYSTEMS

## Perfect proportions and consistent geometry.

The Euphoria System is a combination of modern, contemporary design and functional excellence – uniting GROHE DreamSpray® and GROHE TurboStat® in one coordinated product. The aesthetic has been skilfully reduced to ensure perfect proportions and consistent geometry, while the coordinated hand and head showers enhance the visual appeal and celebrate water.

The systems deliver all the benefits of a fully customized system, including a thermostat, head shower and hand shower. The head shower with a diameter up to 210 mm diameter can be swivelled to the optimum position and is supplemented by the award-winning Euphoria hand shower. Both showers feature our luxurious Rain spray, identified by extensive consumer research as the most used and appreciated of all available spray patterns. The shower rail is equipped with GROHE CoolTouch® to prevent scalding and to protect the GROHE StarLight® chrome surface.

# GROHE NEW TEMPESTA COSMOPOLITAN SYSTEM

## **The perfect choice for modern, architectural bathrooms.**

With its crisp, cylindrical profile and distinctive bevelled detailing, the New Tempesta Cosmopolitan System is the perfect choice for modern, architectural bathrooms. Like all GROHE shower systems, it is easy to install and packed with great technology. The 160mm head shower and 390mm shower arm can be swivelled to create the perfect angle while the hand shower features two spray patterns, including air-infused GROHE Rain O<sup>2</sup> for a wide and full spray.

The shower rail features GROHE CoolTouch®, and the thermostat's GROHE TurboStat® technology means you can take a luxurious shower secure in the knowledge the water will stay at the pre-selected temperature even if the water pressure changes.

# GROHE FREEHANDER

## Effortless flexibility

Switching from head shower to side shower is effortless with the award-winning Freehander. The ingenious design enables you to alternate between the two positions with one simple movement. Featuring GROHE DreamSpray® technology, the two showerheads offer a choice of two spray patterns: Normal and Massage. To save water, an 'Eco' function allows you to reduce the water flow from each of the showerheads, while the 'Stop' function allows you to use just one of the outlets.

# GROHE HAND SHOWERS & SHOWER SETS

**Hand shower**   **Finish**  
27 449 000   Chrome

The classic way to enjoy a GROHE shower is to install a shower set with a hand shower. GROHE showers with GROHE DreamSpray® innovative shower technology come in different sizes – from 100 mm to XXL 160 mm – and in different designs. Choose an extra wide shower for a more complete shower experience, where the GROHE innovative sprays cover your complete body.

All GROHE hand showers have GROHE CoolTouch® technology; our InnerWater Guide prevents the radiant GROHE StarLight® chrome finish from cracking and ensures it's never too hot to handle – a real plus when you're using very hot water to clean the bath.

# GROHE POWER&SOUL®

Hand shower    Finish  
27 663 000    Chrome

How do you like your shower? A refreshing burst of water to energize and stimulate in the morning – cleansing your body and awakening your mind; or something a little more relaxing in the evening – soft, restorative air-infused bubbles that gently caress your skin?

GROHE Power&Soul® showers have been created with full appreciation of your moods and needs. Powered by GROHE DreamSpray® technology, four innovative spray patterns - GROHE Rain O², Rain, Bokoma Spray™ and Jet - offer a choice of tempting experiences. And with the introduction of the new One-Click Showering, switching between spray patterns has never been easier.

# PROBABLY THE MOST INNOVATIVE SHOWER IN THE WORLD

Everyone's idea of the perfect spray pattern is different, which is why GROHE Power&Soul® showers feature up to four different sprays. Revitalising or relaxing, stimulating or soothing: whichever sensation you're looking for, we have a spray to match.

## FOR MAXIMUM VITALIZATION IN THE MORNING

### **GROHE Jet**

A focused circular spray which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

### **GROHE Bokoma Spray™**

Eight dynamic spray nozzles create a 'breathing' effect, recreating the tension-relieving sensation of a fingertip massage.

## ... AND FOR TOTAL RELAXATION IN THE EVENING

### **GROHE Rain O²**

A soft, smooth spray based on our original Rain spray. Air is drawn into the hand shower face and mixed with water for a wider and fuller spray.

### **GROHE Rain**

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking summer rain, the spray provides full and even coverage.

**Hand shower** **Finish**  
27 672 000 **Chrome**

# GROHE POWER&SOUL® COSMOPOLITAN

With its cohesive use of flat cylindrical shapes and stepped detailing, GROHE Power&Soul® Cosmopolitan is the perfect choice for modern architectural bathrooms. Three sizes of hand showers feature a choice of up to four truly innovative spray patterns: GROHE Rain O², Rain, Bokoma Spray™ and Jet.

Refined and honest, Cosmopolitan style is a meticulous balance of design and functionality. Influenced by modern architecture, it fuses bold geometric shapes with advanced engineering.

# GROHE POWER&SOUL® NATURAL COLOURS COLLECTION

**Probably the most innovative shower in the world – now available in a palette of six natural shades.**

This New colourful Power&Soul® range draws inspiration from nature's organic colour palette of muted stone hues – reflecting popular material choices found in the bathroom.

As with all Power&Soul® showers, the new additions feature GROHE DreamSpray® technology – for perfectly balanced water distribution to every single shower nozzle – while SpeedClean nozzles prevent the build-up of limescale, ensuring the spray face retains its pristine appearance. The InnerWater Guide ensures the longevity of the chrome layer. On the handle, our highlight, new One-Click Showering, ensures that switching between spray patterns has never been easier.

For a personalised shower experience night and day, choose GROHE Power&Soul® Natural Colours.

Available from June 2013

# GROHE RAINSHOWER® COLOUR COLLECTION

Offered in a palette of 12 colours, the GROHE Rainshower® Colours Showers are an easy and quick way to renovate a bathroom. The GROHE Rainshower® Colours Showers takes the award-winning halo-shaped design of Rainshower® Icon to the next level. Precise engineering of the shower jets and GROHE DreamSpray® technology ensure the central water jets converge to create a full spray – for perfect delivery of the Rain spray pattern. The EcoButton on the shower handle enables effortless, fingertip water saving whenever you need it. Simply slide the button and reduce the water used by up to 40%.

# GROHE RAINSHOWER® NEXT GENERATION ICON

Rainshower® Next Generation Icon is the ultimate style statement. The award-winning design provides a unique interface to water by challenging the very notion of a solid volume product. The halo-shaped spray face reduces the aesthetic volume and delivers a large full spray thanks to the perfectly aligned shower nozzles and GROHE DreamSpray® technology.

# GROHE RAINSHOWER® NEXT GENERATION SOLO

Rainshower® Next Generation Solo is the result of extensive consumer research – which clearly indicated that the Rain spray pattern is by far the most used and appreciated of all available sprays.

Surrounded by a ring of GROHE StarLight® chrome, the single spray is intuitive and honest and delivers the unique benefits of GROHE DreamSpray® for an unparalleled shower. The large spray face is easy to care for thanks to the SpeedClean nozzles, which prevent the build-up of limescale.

# GROHE EUPHORIA 110

The ergonomic design of the Euphoria hand shower features an extended handle that flows seamlessly into the spray face – surrounding it with an elegant ring of chrome. For an unparalleled shower experience, GROHE DreamSpray® distributes the water evenly to every nozzle, while a SprayDimmer reduces water consumption by up to 40 % for our SmartRain spray. All Euphoria hand showers feature the popular and opulent Rain spray pattern, which can be supplemented with SmartRain and a choice of third spray: Massage, Pure or Champagne spray.

NEW ! All Euphoria Shower Sets now come with a GROHE Silverflex shower hose.

# GROHE EUPHORIA 110 F-DIGITAL

Simple, convenient and discreet, Euphoria F-digital embraces the latest wireless technology to bring digital showering to a wider audience.

The digital puck starts and stops the water and adjusts the temperature, while the dial around the outside gives precise control of the water pressure. An LED ring displays the water temperature – giving you instant visual feedback. To switch between the head shower, hand shower or body showers, simply push the corresponding button on the digital diverter. Nothing could be easier.

For comfort and convenience, a remote control lets you start your shower from outside the shower area, so that the water can reach your preferred temperature before you step into your shower. You can even programme the controller to start your shower with the head shower, the hand shower, or the body showers.

Press the on/off button to start the water flow.

Turn the ring which surrounds the controller to adjust the water flow.

Use the minus (-) button to decrease the temperature.

Use the plus (+) button to increase the temperature.

# GROHE NEW TEMPESTA 100

Created to enhance the latest contemporary bathing spaces and to complement a wide selection of GROHE faucet collections, New Tempesta 100 combines the performance of GROHE DreamSpray® technology with stylish looks and practical features.

An anti-shock silicone ring, which wraps around the spray plate of the hand shower, prevents damage to the shower tray or bath if the shower is dropped, making the design an ideal choice for families with young children.

# GROHE NEW TEMPESTA RUSTIC 100

New Tempesta Rustic 100 balances a traditional aesthetic with modern technology. The classic shape of the shower head is complemented by a bevelled detail which surrounds the spray face and is repeated on the handle.

Inside, GROHE DreamSpray® technology ensures the water is equally distributed to all shower nozzles, for an exhilarating experience every time.

# GROHE STICK HAND SHOWERS

**Hand shower**   **Finish**  
28 034 000   Chrome

Minimalism is an ongoing trend in the bathroom. GROHE stick hand showers and shower sets are perfect for installing next to the bath tub, in a minimalist, tailor-made shower, or just as a shower set to enjoy a refreshing GROHE shower in today's stylish bathrooms.

All GROHE hand showers feature GROHE CoolTouch® technology, in which an inner water guide prevents the radiant GROHE StarLight® chrome finish from cracking and ensures it's never too hot to handle. This is a real plus when using very hot water to clean the bath.

# GROHE SENA STICK

Simple and understated, the modern cylindrical design of the full metal Sena hand shower makes it the preferred choice for architectural spaces.

Despite its diminutive size, Sena delivers a powerful spray thanks to the GROHE DreamSpray® technology inside – which ensures the water is evenly distributed across all the jets. Its crisp profile is highlighted by the immaculate GROHE StarLight® chrome finish, while SpeedClean nozzles prevent the accumulation of limescale.

# GROHE RAINSHOWER® NEXT GENERATION ECO STICK

Rainshower® Next Generation Eco was inspired by a simple consumer insight “from above, the human body is not round.” The lozenge-shaped design of the spray face mirrors the shape of the human body and benefits from GROHE DreamSpray® technology – for even and efficient water distribution. For the environmentally conscious consumer, simply activate the Eco button to use even less water.

# GROHE EUPHORIA CUBE STICK

A precise combination of square and rectangular shapes enhanced with the latest GROHE technologies make Euphoria Cube the smart choice if you appreciate minimalist design in the bathroom. The reduced lines and modern aesthetic of the hand shower reflect the crisp square outline of the head shower in this understated collection, which introduces pure geometric forms to your shower environment. For perfect delivery of our exhilarating Rain spray pattern, Euphoria Cube showers feature GROHE DreamSpray® technology.

# GROHE EUPHORIA CUBE<sup>+</sup> STICK

Expressing the beauty of simplicity through its full metal body and slender rectangular silhouette, Euphoria Cube<sup>+</sup> unites understated design with perfect technology. In line with the architectural purity of its form, shower nozzles take on a linear arrangement bringing balance to the design. On the wall holder, a faceted escutcheon ensures no detail has been forgotten.

# GROHE TRIGGER SPRAYS

Combining functionality with modern aesthetics, GROHE trigger sprays bring a new level of hygiene to the bathroom. Available in four finishes: black, white, matt silver and GROHE StarLight® chrome, the universal appeal of the design complements our extensive range of flush actuation plates.

To meet your requirements, trigger sprays can be purchased individually or as part of a shower set – with or without a valve.

# GROHE SANITARY SYSTEMS

From sanitary installation frames and concealed cisterns to a stunning choice of flush actuation plate, GROHE provides all the essential elements to complete your bathroom project.

# GROHE WHISPER®

**Innovative water technology delivering whisper-quiet acoustics.**

For peace, comfort and design freedom, our concealed cisterns feature GROHE Whisper® technology. Thanks to decoupled pipe supports, there is no sound transfer to the structure of the building when the water is released from the cistern to the bowl. Allowing the WC to be located in the most convenient location without fear of disturbing others.

**GROHE Whisper®  
technology**

„Whisper-quiet“ flow noise for  
added comfort with Rapid SL  
installation systems.

GROHE FRESH

312

GROHE RAPIDO U

314

# GROHE FLUSH PLATES THE PERFECT FINISHING TOUCH.

GROHE actuation plates complement our faucet collections and will enhance your next bathroom project. They match our Rapid SL frames, Uniset and all concealed systems, feature GROHE EasyConnect – a single pneumatic hose for fast installation – and can even be retrofitted if required.

Fixed vertically or horizontally to suit their surroundings, the majority can also be fitted with GROHE Fresh – our solution for a clean and fresh WC at the push of a button.

Our WC plates feature dual-flush actuation of 6 liters and 3 liters – allowing the user to choose how much water to use. For further water saving, all GROHE cisterns can be adjusted to reduce the larger flush volume to 4.5 liters.

# GROHE ONDUS® DIGITECTURE LIGHT

Uniting water-saving dual flush actuation with inspired new lighting effects, GROHE Ondus® Digitecture Light gives an ambient wash of colored light to the bathroom. Made from safety glass, the 200 mm square plates are available in black or white and feature the latest LED technology. Illumination is set using either the built-in timer function, or by the 'on/off' switch and can be fixed at a single color or left to cycle through an ever-changing light display.

But it's not just about decoration. The LED gives off just the right amount of light that should you need to use the toilet in the middle of the night you don't have to turn on the main bathroom light; so there's less chance of disturbing your body clock and natural sleep patterns.

In addition to traditional push-button actuation, the plate also features a proximity sensor for touch-free flushing – simply pass your hand in front of the either the large or small button and the toilet will flush automatically.

# GROHE NOVA LIGHT

Reflecting the design aesthetic of the GROHE Cosmopolitan collections, the Nova Light actuation plate utilizes two basic geometric shapes. This simple combination of a circle framed by a rectangle is brought to life by a ring of light, while casting a gentle colored glow over the surrounding area.

Mains-powered LED technology allows you to set the light to any color – blue, green, red, yellow or one of the many tones in-between – or to have a constantly changing spectrum. Finished in GROHE StarLight® chrome, Nova Light can be mounted in either landscape or portrait format and can be programmed to switch on and off at any given time.

And if you need to use the toilet during the night, the LED gives off just the right amount of light so you don't have to turn on the main bathroom light – meaning that there's less chance of disturbing your body clock and natural sleep patterns.

# GROHE SKATE COSMOPOLITAN LEATHER

Skate Cosmopolitan Leather flush actuation plates combine striking design with a select range of luxurious leather finishes. The palette of four neutral colors: white, beige, black or Tanin red, are available in either plain or quilted leather – for effortless coordination with a wide range of bathroom materials.

Actuation buttons in GROHE StarLight® chrome are complemented by the string of chrome that frames the leather surround – adding a refined touch to the design. Plates can be mounted horizontally or vertically to suit the requirements of your installation.

# GROHE SKATE COSMOPOLITAN GLASS

As the bathroom evolves tiled surfaces continue to give way to a variety of different wall finishes. The latest addition is glass.

Pure, modern and enticing – Skate Cosmopolitan Glass plates feature chamfered and polished edges resonating precision and quality. A mere 6 mm thick, their glossy surface highlights the pristine finish of the GROHE StarLight® chrome actuation. A choice of four glass finishes includes black and white – which could be used to complement the new black and white faucets in our Quadra collection. Skate Cosmopolitan Glass includes models for the WC and urinal, enabling complete coordination across your project.

# GROHE SKATE COSMOPOLITAN WOOD

Timeless and enduring, few materials can rival wood when it comes to adding warmth to an interior. GROHE Skate Cosmopolitan Wood is offered in a choice of six natural wood finishes to complement the latest styles of bathroom furniture and wood-effect tiles.

From fresh Bamboo to the rich tones of American walnut or cherry, the pronounced grain of the wood veneer radiates authenticity and is highlighted by a band of striking GROHE StarLight® chrome, which complements the dual-flush actuation. The natural finish ensures no two surrounds are the same – bestowing a unique touch to the bathroom. Measuring a discreet 197x156 mm, they can be mounted horizontally or vertically.

# GROHE NOVA COSMOPOLITAN PRINT

With its fresh design and choice of printed finishes, Nova Cosmopolitan brings an exciting modern element to our comprehensive range of flush plates. Its use of geometric shapes – circular actuation is framed by a rectangular plate – makes it the ideal choice for cutting-edge spaces.

Avantgarde bathrooms will benefit from the graphic prints, which include a circular design in chrome to reflect light around the space. A choice of colors ensures the design complements several of our faucet and shower collections.

# GROHE SKATE COSMOPOLITAN PRINT

While the design of Nova Cosmopolitan is based on the circle, rectangular shapes dominate Skate Cosmopolitan. Optical patterns are used to create three-dimensional effects, which draw attention to the purity of the GROHE StarLight® chrome actuation buttons.

Skate Cosmopolitan is also available in a titanium finish featuring anti-fingerprint protection – making it the perfect choice for high-traffic environments.

# GROHE ARENA COSMOPOLITAN

The GROHE visual DNA enables consumers to recognize GROHE quality at a glance. Central to this is the use of lozenge shapes, which can be found across several of our ranges.

On GROHE Arena Cosmopolitan the soft, user-friendly appeal of the lozenge is used to form the actuation buttons. Available in GROHE StarLight® chrome, matt chrome and white, the design complements a number of our faucet collections and also includes a model for urinals.

# GROHE SANITARY SYSTEMS

## INSPIRED SOLUTIONS FOR SANITARY WARE.

Create a streamlined contemporary bathroom with our range of concealed installation and flushing systems.

Lifestyle changes and technological advances have transformed the bathroom from a purely functional space into the most indulgent and exciting room in the house. Our desire to create a space that is both relaxing and hard working has led us towards more streamlined bathing spaces, where only the beautiful and key pieces are on show. Our range of sanitary systems allows you to create the bathroom of your dreams, by offering a choice of quick and secure ways to fix wall-mounted sanitary ware and a number of advanced flushing solutions.

### **Contemporary spaces**

Wall-hung sanitary ware lends an up-to-the-minute contemporary look and is now the preferred choice of style-conscious homeowners, supplanting the cumbersome pedestal basins and close-coupled WCs of old. Visually, even the smallest of bathrooms will appear larger because the floor area is clear; and with no awkward corners to trap dirt, cleaning is quick and easy.

### **Choice and flexibility**

Whatever the size and shape of your bathroom, with Rapid SL you're no longer restricted to four walls. Thanks to our versatile frame system, the layout and design choices for your new bathroom are endless – the only limit is your imagination. Mid- and full-height walls can be introduced not only to 'zone' wet and dry areas but to provide additional space for basins and bidets, while our corner solutions allow you to utilize tight spaces. Concealed WC cisterns are ideal for installation with a back-to-wall toilet pan in furniture or in a cavity.

### **Simple installation**

Whether you are planning a new project or modernising your existing bathroom, our Rapid SL frame system ensures hassle-free bathroom installation. Frames can either be built into stud walls or placed in front of a brick or stud wall – so there's no need to spend time and money hacking off old tiling. The frame is simply secured in place during the construction or refurbishment of your bathroom and concealed behind a wall.

### **Design and technology**

As with all our products, Rapid SL offers a host of other benefits. Our concealed cisterns are unbelievably quiet, and this is enhanced when the cistern is fixed to an installation frame rather than the wall. They can be fitted with either dual or single flush plates designed to complement our faucet collections – choose a dual flush model and you can save water by flushing with a reduced water volume.

For further information on Rapid SL and masonry installation frames visit our website: [www.grohe.com](http://www.grohe.com) or see our special Sanitary Systems brochure.

Press the large button  
and flush with the  
entire water volume.

Press the Eco button  
and flush with a  
reduced three-litre volume.

Choose dual flush technology and use up to 50% less water.

# GROHE RAPID SL INSTALLATION SYSTEMS

The Rapid SL system gives you the freedom to design your ultimate bathroom by providing a secure and quick method of installing wall-hung basins, bidets, urinals and WCs.

Available in three different installation heights, each frame comes pre-assembled with sanitary ware fixings and is subject to stringent testing – our WC frames are tested to hold 400kg.

# GROHE FRESH

Creating innovative solutions for everyday problems is something that GROHE is proud of.

GROHE Fresh brings a new level of convenience to the bathroom. It allows you to have the best of both worlds – the clean lines achieved from choosing a concealed cisterns and the continuous hygiene and cleanliness associated with cistern blocks. Until now, it was not possible to access a concealed cistern to add a cleaning block. GROHE Fresh features an easy-to-open actuation plate, which gives access to a slide that delivers the tablet into the cistern. The entire process takes seconds, thanks to the hinged plate that opens like a door.

GROHE Fresh is compatible with all GROHE concealed cisterns with small actuation plates – whether it's a new installation project or the upgrade of an existing one. It is offered as a set with the actuation plate of your choice, or as retrofit accessory to use with your current cistern and plate. For older cisterns, simply remove the fixing frame, add the slide to the cistern and attach the new frame, then re-connect the pneumatic hose to the actuation plate. For cisterns without the AV1 flushing valve, a complete upgrade kit is available.

Open actuation of the cistern with a fingertip.

Choose any odor block or cleaning tab.

Slide in the cleaning tab.

Close and flush!

# GROHE RAPIDO U

Rapido U is our universal concealed body for the installation of urinals. With a depth of only 80 mm, Rapido U can be used with a choice of manual or electronic actuation plates. Electronic actuation plates feature the latest energy-efficient technology for reduced power consumption. They can be either battery or mains (230V) operated, while the standardization of the plate sizes means that it is now possible to upgrade from manual to electronic at a later date. Available in Cosmopolitan, Contemporary and Authentic design styles, the plates complement the GROHE range of WC actuation plates – allowing for a coordinated look throughout your project.
