

The Star Of Every Kitchen

Sinks And Taps - The complete BLANCO range

www.blanco-indonesia.com

BLANCO is based in Germany and homes around the globe

BLANCO is one of the **leading international suppliers** of sink centres. Our main strength is on the **maximum functionality** through **innovative concepts** for product development.

Our products are top quality. Through intensive research and certified quality management guarantee high quality material workmanship, which offers maximum functionality thanks to our endless product concepts and well thought accessories.

System solutions: sinks, taps, waste separation systems and functional accessories, perfectly coordinated with each other. **We supply a complete range** of wide selection in every segment.

Our Beloved Customers Are Our Main Source Of Inspirations!

An independent survey proves that the heart of every kitchen is the sink. **Over 60% of the work is done here instead of dishwashers!**

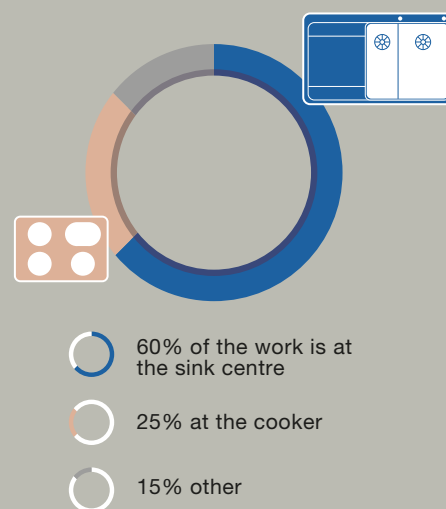

Dishwashers create quite a deal of dirt and it must be cleaned away. And it costs time.

That's why to save your precious time, we want to make kitchen chores as simple as possible!

BLANCO is easy to care and clean. Whether it's stainless steel or silgranit.

BLANCO sinks are the right choice for :

- the degree of work facilitation
- the long term value of the kitchen
- the pleasure from and in the kitchen

We are very thankful for your trust and support, which made it possible for us to receive such prestigious honours!

Stainless Steel - The classic timeless beauty

Stainless steel integrates beautifully in any kitchen environment - better than almost any other material. Its main properties are :

- classic, timeless aesthetic
- rustproof
- completely heat resistant
- suitable for food use and hygienic
- non - fading
- easy to care

BLANCO uses only **the highest quality stainless steel of alloy grade 18/10 (DIN1.4301)**, this means with roughly 18% chromium and around 10% nickel, to satisfy the highest possible standard.

SILGRANIT™ PuraDur™ Sinks - Everlasting unique quality

The stony - silk surface and finely pored, closed surface create a soft stone like character that is wonderful to the touch. **Unbeatable easy to look after and long lasting.** Thanks to the excellent material properties, Silgranit PuraDur offers an ease of care and level of resistance that has never been offered before for coloured composite sinks.

- unsurpassed scratch resistance
- unsurpassed resistance to breakage
- unsurpassed heat-resistance to 280°

Silgranit puradur guarantees

- 100% suitable for food use
- 100% acid resistant
- 100% non fading

Mixer Taps - The sink's perfect partner

Untested taps can significantly exceed the maximum permissible value for substances which endanger health. BLANCO taps are extensively tested and certified. They thus provide maximum safety in terms of health and hygiene. BLANCO has the technology and hygiene of its taps voluntarily tested according to the stipulations of the German drinking water regulation and certified by the DVGW cert GmbH (Certification body of the German Scientific and Technical Association for gas and Water e.V). With this certification **Blanco taps provide one of the highest qualities currently available on the German market.**

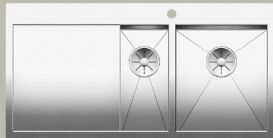

BLANCO received approval for safety and hygiene
